### **1. DESCRIPTION OF BUSINESS**

Aurion Resources Ltd. (the “Company”) was incorporated under the *Business Corporations Act (Alberta)* on April 6, 2006 and was continued into British Columbia on August 10, 2018 under the *Business Corporations Act (British Columbia)*. The Company was listed on the TSX Venture Exchange (the “Exchange”) on October 3, 2008. The Company has its registered head office at 6204 125<sup>th</sup> Street, Surrey, BC, Canada, and its principal office is 120 Torbay Road, Suite W240, St. John’s, Newfoundland and Labrador, Canada. The Company and its wholly-owned subsidiaries are engaged in the evaluation, acquisition and exploration of mineral properties in Canada, Mexico, the United States, Sweden and Finland. The Company plans to ultimately develop the properties, bring them into production, option or lease properties to third parties, or sell the properties outright. The Company has not determined whether these properties contain ore reserves that are economically recoverable and the Company is considered to be in the exploration stage.

These condensed consolidated interim financial statements (the “financial statements”) for the three months ended March 31, 2020 were authorized for issuance by the Board of Directors of the Company on June 25, 2020.

### **2. BASIS OF PREPARATION**

#### *Statement of compliance*

These financial statements have been prepared in accordance with accounting policies consistent with the International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

#### *Basis of consolidation and presentation*

These financial statements reflect the financial position, results of operations and cash flows of the Company and its wholly owned subsidiaries: Minera Aurion de Mexico S.A. de C.V., Aurion Resources (US) LLC, Aurion Resources AB, Aurion Resources Oy and FennoEx Oy. All inter-company transactions and balances have been eliminated upon consolidation.

The financial statements of the Company have been prepared in accordance with IFRS on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company does not have any proven economically recoverable reserves, has continuous losses, and at March 31, 2020, the Company had an accumulated deficit of \$25,839,572 (December 31, 2019 - \$23,617,648). However, management has assessed that the working capital is sufficient for the Company to continue as a going concern beyond one year. The success of the Company and the recoverability of exploration costs are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain financing to fund and complete the development of such reserves, the ability of the Company to satisfy obligations as they come due and upon future profitable production from the properties or proceeds from disposition. The Company’s ability to raise additional funds is dependent on favourable conditions in equity and alternative investment markets, which are volatile and subject to significant uncertainty.

### **2. BASIS OF PREPARATION (Continued)**

The amounts shown as exploration and evaluation assets represent net costs to date, less write-offs and do not necessarily represent present or future values. Although the Company has taken steps to verify title to mineral properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers and may be affected by undetected defects. If the going concern assumption was not appropriate for these financial statements, adjustments would be necessary to the carrying value of assets and liabilities, the reported net loss and the statement of financial position classifications used.

#### *Basis of measurement*

These financial statements have been prepared on a historical cost basis, except for financial assets classified as at fair value through profit or loss, which are measured at fair value. Additionally, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

#### *Currency of presentation*

All amounts are expressed in Canadian dollars, unless otherwise stated.

### **3. SIGNIFICANT ACCOUNTING POLICIES**

These financial statements should be read in conjunction with the Company's annual consolidated financial statements and accompanying notes for the year ended December 31, 2019. These financial statements have been prepared using the same accounting policies as described in the Company's December 31, 2019 consolidated financial statements.

### **4. CAPITAL MANAGEMENT**

The capital structure of the Company consists of capital and equity comprising share capital, warrants, reserves and deficit. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The properties in which the Company has an interest are in the exploration stage; as such, the Company has historically relied on the equity markets to fund its activities. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis which remains unchanged from the year ended December 31, 2019. The Company is not subject to externally imposed capital requirements. In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business or results of operations at this time.

### 5. FINANCIAL INSTRUMENTS

Financial instruments recorded at fair value on the consolidated statement of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 – valuation based on quoted prices (unadjusted) observed in active markets for identical assets or liabilities

Level 2 – valuation techniques based on inputs that are quoted prices or similar instruments in active markets; inputs other than quoted prices used in a valuation model that are observable for that instrument; and inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – valuation techniques with significant unobservable market inputs

The Company does not have any level 2 or 3 fair value measurements, and there have been no transfers between levels.

As at March 31, 2020	Level 1	Level 2	Level 3	Total
<b>Financial assets</b>	\$	\$	\$	\$
<b>Cash</b>	4,942,537	-	-	4,942,537
<b>Short-term investments</b>	3,693,400	-	-	3,693,400
<b>Marketable securities</b>	2,760,000	-	-	2,760,000
<b>Total financial assets</b>	11,395,937	-	-	11,395,937

#### *Financial Risk Factors*

The Company has exposure to credit risk, liquidity risk and market risk. The Company's Board of Directors has the overall responsibility for the oversight of these risks and reviews the Company's policies on an ongoing basis to ensure that these risks are appropriately managed, which are summarized below:

#### *Credit risk*

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to receivables, which is mainly comprised of government tax refunds. Management believes that the credit risk concentration with respect to financial instruments included in the receivables is not significant. The Company holds cash and invests it in interest bearing deposit accounts at its financial institution. Management believes that the associated credit risk for its invested cash is low.

#### *Liquidity risk*

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. As at March 31, 2020, the Company had cash of \$4,942,537 to settle current liabilities of \$1,113,039. To the extent that the Company does not believe it has sufficient liquidity to meet its current obligations, the Board of Directors considers securing additional funds through equity or partnering transactions. All of the Company's financial liabilities are short-term in nature and are subject to normal trade terms.

### 5. FINANCIAL INSTRUMENTS (Continued)

#### *Market risk*

Market risk is the risk that changes in market prices, such as interest rates, foreign exchange rates, and equity prices will affect the Company's income or the value of its financial instruments.

(a) Interest rate risk – The Company has cash balances subject to interest rate risk. The Company's current policy is to invest excess cash in either interest bearing deposit accounts or Guaranteed Income Certificates ("GICs") issued by its financial institutions. As of March 31, 2020, the Company held deposits in short-term savings accounts at a variable interest rate. A 0.5% change in interest rates would change the Company's net loss by approximately \$18,000. Management believes it has minimal exposure to interest rate risk.

The Company's short-term investments are comprised of GICs held with Canadian financial institutions which accrue interest at an average rate of 2.3%. As at March 31, 2020, the Company held three GICs with a combined principal of \$3,600,000 (December 31, 2019 – six GICs with a combined principal of \$3,600,000). As at March 31, 2020, the carrying value of the Company's short-term investments was \$3,693,400 (December 31, 2019 - \$3,663,824) including \$93,400 of accrued interest (December 31, 2019 – \$63,824).

(b) Foreign exchange risk - The Company transacts certain business in Euro, Swedish Kroner, U.S. Dollars and Mexican Pesos, and therefore is subject to foreign exchange risk on certain receivables, trade payables and cash balances. The Company attempts to mitigate these risks by managing its foreign exchange inflows and outflows. No hedging instruments have been used by the Company, however, depending upon the nature and level of future foreign exchange transactions, consideration may be given to the use of hedging instruments. The Company believes that it adequately manages its foreign exchange risk, and the risk is minimal.

The following table shows the net exposures in US dollars, Swedish Kroner and Euro at March 31, 2020.

	<b>US\$</b>	<b>Euro</b>	<b>SEK</b>
Cash	<b>46,634</b>	<b>708,288</b>	<b>3,301,684</b>
Receivables	-	-	-
Trade payables	<b>(1,065)</b>	<b>(359,390)</b>	-
Net currency exposure	<b>45,569</b>	<b>348,898</b>	<b>3,301,684</b>

Based on the above currency exposures, a 10% change in the value of each currency to the value of the Canadian dollar would impact the Company's net loss by:

	<b>US\$</b>	<b>Euro</b>	<b>SEK</b>
	<b>4,557</b>	<b>34,890</b>	<b>330,168</b>

#### 5. FINANCIAL INSTRUMENTS (Continued)

(c) Equity risk – The Company is exposed to market risk because of the fluctuating values of its publicly traded marketable securities. The Company has no control over these fluctuations and does not hedge its investments. Based on the March 31, 2020 value of the marketable securities every 10% increase or decrease in the share prices of these companies would have impacted the loss for the period, up or down, by approximately \$371,300 (December 31, 2019 - \$350,050).

#### 6. MARKETABLE SECURITIES

Marketable securities consist of common shares listed on an active market that have been received pursuant to mineral property option agreements (Note 7). Changes in marketable securities outstanding are as follows:

- (a) On August 13, 2015, the Company signed a binding Letter Agreement with B2Gold Corp. (“B2Gold”), granting B2Gold the right to earn up to an undivided 75% interest of an approximately 25,000 ha project area that includes the Kutuvuoma and Ahvenjarvi projects in Finland. On January 18, 2016, the Company formalized a definitive Option Agreement (“Option Agreement”) with B2Gold consistent with the terms of the binding Letter agreement signed on August 12, 2015.

Under the terms of the Option Agreement, B2Gold must complete \$5,000,000 in exploration expenditures, pay the Company \$50,000 cash and issue 550,000 B2Gold common shares over 4 years to earn an initial 51% interest. B2Gold can earn an additional 19% interest by spending a further \$10,000,000 over 2 years. B2Gold can earn an additional 5% interest (for a total of 75%) by completing a bankable feasibility study. The first-year commitment of \$750,000 in exploration expenditures, including 2,000 meters of drilling and payment of \$50,000 cash and 50,000 B2Gold shares, was guaranteed. Over the period of January 18, 2016 to August 13, 2019, B2Gold fulfilled the terms of the Option Agreement and the Company received a total of \$50,000 in cash and 550,000 B2Gold common shares (Note 6).

### **7. EXPLORATION AND EVALUATION ASSETS (Continued)**

On August 1, 2019, the Company received the final 200,000 B2Gold common shares as per the Option Agreement at a value of \$884,000 (Note 7). The carrying value of the properties under the Option Agreement was reduced to Nil and the remaining amount of \$459,442 was recorded as a gain on property transactions in income.

On August 13, 2019, the Company received a Notice of Exercise of Option from B2Gold confirming that B2Gold had fulfilled its obligations under the Option Agreement dated January 18, 2016, and that as of August 14, 2019, the Option was deemed to be exercised.

On August 14, 2019, the Company entered into a Shareholders Agreement (“Shareholders Agreement”) with B2Gold for the management and operation of a new company to be incorporated upon exercise of the Option on August 13, 2019. Fingold Ventures Ltd. (“Fingold”) was incorporated on August 14, 2019 (Note 9). The Kutuvuoma, Ahvenjarvi, Sore-Eksy, Tepsa and Sinermanpalo properties were transferred into Fingold and as per the terms of the Shareholders Agreement, B2Gold holds 51% and the Company holds 49% of Fingold share capital. B2Gold has the right to earn up to 75% in Fingold. B2Gold can earn an additional 19% by spending \$10,000,000 within two years and earn a further 5% by funding all programs and budgets until the completion of a Feasibility Study.

- (b) On January 6, 2011, the Company signed an Option Agreement with Genesis Gold Corp (“Genesis”), whereby it has an option to purchase a 100% interest in the Bull Property in east-central Nevada, subject to a 2% NSR, by making annual cash payments starting at US\$10,000 (paid) increasing to a maximum US\$125,000 beginning in 2016. The option to purchase can be executed at any time by making a one-time cash payment of US\$3,000,000 less any payments already made.

On December 17, 2015, the Company signed a Letter Agreement to amend the terms of the Bull Option Agreement. Under the terms of the amendment, the lease payment for 2016 was reduced to US\$10,000 and the lease payments for the years 2017 through 2027 were to remain at US\$125,000 per year.

On November 5, 2016, the Company signed a Letter Agreement to amend the terms of the Bull Property Option Agreement with Genesis for the second time. Under the terms of the amendment, the lease payment for 2017 would be waived and the lease payments for the years 2018 through 2027 would remain at US\$125,000 per year.

On December 1, 2017, the Company entered into a Restated Mineral Lease and Option to Purchase Agreement to replace the original agreement entered into with Genesis on January 6, 2011 for the Bull Property. Under the terms of the restated agreement, the annual lease payments would resume on December 1, 2018 at US\$10,000 and increase annually to US\$95,000 by 2028. Lease payments for the years 2029 through 2031 would be at US\$100,000 per year.

On September 30, 2019, the Company determined that the Bull project no longer held merit for future development. The agreement with Genesis was terminated and all related costs were written down.

### 7. EXPLORATION AND EVALUATION ASSETS (Continued)

- (c) On January 31, 2018, the Company signed a non-binding Letter of Intent (“LOI”) with Kinross Gold Corporation (“Kinross”), granting Kinross the right to earn up to an undivided 70% interest in the Outa project, an area covering approximately 15,000 ha in Northern Finland. Under the terms of the LOI, Kinross must spend US\$5,000,000 over 5 years to earn a 70% interest in the project and Kinross has agreed to expend US\$1,000,000 on exploration of the project within the first 2 years.

On August 17, 2018, the Company entered into an Option Agreement with Kinross pursuant to the terms of the LOI signed on January 31, 2018.

- (d) On April 24, 2019, the Company entered into an option agreement with Strategic Resources Inc. (“Strategic”) granting Strategic the option to earn a 100% interest in the Company’s wholly owned Silasselka Vanadium Project in northern Finland. Under the terms of the option agreement, Strategic may acquire up to a 100% interest in the project by paying \$500,000 cash, issuing 8,000,000 Strategic shares and incurring \$3,000,000 in exploration expenditures, through a two stage earn-in over a period of three years. At March 31, 2020, the Company had received \$500,000 cash and 3,000,000 Strategic shares at a fair value of \$1,830,000 (Note 7). The carrying value of the Silasselka Property was reduced to Nil and the remaining amount of \$1,973,695 was recorded as a gain on property transactions in income.
- (e) During the year ended December 31, 2019, the Company recorded a write down of the full carrying value of the Ruoppa, Kiekeroma and Lapio projects in Finland. The Company decided to impair these properties due to recent and projected inactivity along with the anticipated difficulty in transacting the properties to a third party for the foreseeable future due to the uncertainty surrounding the COVID-19 pandemic.

### 8. INVESTMENT IN ASSOCIATE

The Company has a 49% equity interest (4,900 common shares) in Fingold which was incorporated on August 14, 2019 subsequent to B2Gold exercising its Option on August 13, 2019 (See Note 7) pursuant to the Option Agreement entered into on January 18, 2016. Effective August 13, 2019, the Company accounts for this investment by the equity method. As at March 31, 2020, the associates assets, liabilities and net loss are as follows:
